BROWN SWISS

# COMMENTS BROWN SWISS PROOFS

Iria, dam of NAMUR

Jenifer PF, dam of MOMO PF

Jalna, dam of MELVIS

Imperatrice, dam of MAJESTE

With the deduction of the annual base change, this April proof run sees a slowdown in general ISU of -5 pts on average. This reflects a clear and growing genetic progress of the breed, which is very positive and does not detract from the qualities of the best bulls, the ranking is more important than the value itself!

The BGS bulls “M” and “N” generation approach the top level of all international lists. NAMUR (Vassli) is #2 in Germany with a GZW of 135 and already retained as sire of son. In Switzerland MOMO PF (Ifeeling) gets a GZW of 1407 which puts him in 1st position of the bulls available in Switzerland! He is also sire of son there. In the USA, it is MAJESTE (Carter) who is #4 of the bulls available in this country with 217 PPR! and in Italy, NAMUR is in the top 15 with an ITE of 1327 pts.

## NEW GENOMICS BULLS:

**NAMUR**

Vassli x Anibal x Hucos x Zoldo

This half-brother of LUTHER is even better than him with a very high milk level +1495 and a very rich milk at +2.9 %F and +1.0 %P! In Germany it is also 117 in fertility and 117 exterieur! it brings strength, power and excellent feet and legs. His first doses are available quickly and he is expected sexed in the coming months.

**MOMO PF**

Ifeeling x Husold x Dally x Payoff

It is the best son of Ifeeling, who was the leader of French bulls and widely used. He will be a specialist in udder health and components, with very good udder attachments (+0.7 RUH, +1.0 FUA and +0.7 UD). It reached a record level of GZW in Switzerland at 1407 pts thanks to its milk index +1349 and its high components (+0.18 %P and +0.14 %F). Calving is easy, and it is available in sexed semen.

**MELVIS**

Isold x Shottle x Zeus CH x Vinozak

Another son of a very milky French bull, Isold (Husold x Fernando) with a very singular pedigree and a huge milk index at +1677 and a %P at +0.9. He is also a complete bull in type that brings a lot of power (Frame + 1.1 and Body +1.7) to the image of his mother and a productive capacity anchored for generations. He is available in sexed semen.

**MAJESTE**

Carter x Preset x Pronto x General

He is certainly the highest Carter’s son in the world, and he has managed to combine his father’s great milk potential (milk +1511) and the components of his dam imported from Germany (+0.6 %P and +3.1 %F). MAJESTE is # 4 in PPR among the bulls available in the USA! And also 130 of GZW in Germany in the top 10! Its type will be functional with good chest width (+0.6) and body (+0.9), style and good fore udder attachments (+0.7). Easy calvings.

Inde, dam of MALCOM

Grand-dam, dam and full sister of MELCHIOR

Lalante, daughter of HAMSTER, elected miss BGS at the Paris International Show 2018!

Joyeuse pf, daughter of HARD ROCK

HUGOR FBS

Lucie pf, daughter of HARMONICA

**MALCOLM**
Anibal x Harley x Fernando x Zaster
This late son of Anibal is one of the best! From the famous line Urgèle (Vinozak), his 4th mother still alive with more than 100,000 kg. A very dairy bull at +1274 kg with a very complete exterieur and flawless. Its strengths are the quality of feet and legs (+1.1) and well-placed teats of optimal length, ideal for cows that have too short teats. It is planned to make sexed semen in the coming months.

**MELCHIOR**
Biver x Anibal x Huray x Talc
With this sire stack, it has a type background of top level! it is 1.13 in udder composite in the USA, 137 in Italy, 126 in Germany. He is the best son of Biver available in the USA in PPR at 141. He also has the distinction of being one of the most dairy of his sons at +849 in France but also +1212 in Switzerland and +960 in the USA. He holds this potential of his dairy family with excellent rear udder. It is planned to make sexed semen in the coming months.

## CONFIRMED BULLS:

**HAMSTER**
Payssli x Huray x Zeus CH x Jublend
Coming from the same family as Traction, he sees his first 20 daughters start in milk and goes up in all rankings! 152 in ISU, 1272 in GZW ch, 1251 in ITE, 184 in PPR and 120 in GZW de! The results on the ground are very encouraging and the next runs will see more daughters coming to consolidate his index. It is certainly one of the best sons of Payssli with a very high dairy level +1251 and a good fat potential at +1.0. His daughters are very complete with style (+1.2), depth, good top lines and very high rear udders at +1.3. It will also be ideal for correcting too short teat defects and calvings are easy.

**HARD ROCK**
Payssli x Vasir x Garden x Simvitel
This other Payssli son has his proof maintained with very high components (+2.3 %P) and a very attractive overall type at +1.3, a complete profile! With 1275 GZW ch and +123 in udder in Germany, it is a bull that confirms!

**HUGOR FBS**
Huxoy x Vigor x Hussli x Gordon
With almost 100 daughters, this son of Huxoy confirms the high production (+1034) with neutral components (%P 0.1) and correct functional traits. His normal-sized daughters have good top lines, very good feet and legs (+0.7) and wide rear udders ( +0.8) with ideal teats. Breeders are very happy with his daughters.

**HARMONICA**
Dally x Huray x Etvei x Champ
With his first 60 lactating daughters, he loses ground in production potential, but gains in fertility to +1.0 now, keeping high components +1.6 %P and a type proof at the top level with +2.1 in overall with his first 20 daughters ! They have very good dimensions, wide rumps with correct pin settings, very good feet and legs and high snug udders.

EVOLUTION International

Jadore, daughter of HALIDAY

**HALIDAY**

Alibaba x Emerup x Pronto x Collection

This son of Alibaba really generates very functional animals with an ISU of 140 pts. With almost 100 daughters, he approaches the 600 kg of milk, with functional traits all favorable, correct rump angle with a good thurl position (+0.8), very strong feet and legs (heel depth 0.8). The udders are also high, with very strong fore attachments (+1.2).

## NEW WEBSITE: EVOLUTION GENETICS WITHOUT SECRETS FOR YOU

Because you come from different countries and cultures, we offer you our BROWN SWISS genetics in one clic : the first website to offer you 5 breeding systems in 1 clic !

- ISU — GZW– GZWCH– ITE – PPR: choose your way to analyze our bulls as you prefer!
- On time: new proofs available after each publication country per country!
- Select with your own criterias: choose your minimum values on critical proofs for your system! 30 criteria's available: Milk, Protein, Fertility… and also genetic for Semen Fertility, sexed semen!
- All pictures, all proofs, a nice website to appreciate our efficient genetics.
